

1.0 Effective Date

This procedure is effective from 2024-01-15.

2.0 Storage Temperature

Store the reference standard at -20°C.

3.0 Batch Size

Manufacture in batches of 1,000 mg per lot.

4.0 Reference Standard Weighing

Weigh 50 mg of Batch 12 reference standard for the assay.

5.0 Container Specification

Dispense the solution into a 10 mL amber glass vial.

6.0 Calibration Frequency

Calibrate the analytical balance every 30 days using a 200 g reference weight.
